### Redlands CCW Training 9 hour Course (1Day)

Being that carrying a concealed weapon is not for inexperienced shooters there is a expected level of ability needed to take this course. Carrying a concealed weapon is a huge responsibility and one you should not take lightly! So we take this training very seriously!

**(Prerequisite)** You must know your firearm, as if it was a extension of your hand. You should be able to hit 6" targets from 3-15 yard with no problems under no pressure. You should know the 5 count draw and be fluid and safe, You should know what Type I, II and III malfunctions are and be able to clear them with no help, you should know how to perform a emergency reload and a tactical reload.

If you are **new** shooter or someone that is just not as comfortable with his or her firearm as we have explained above we can train you! These would be the recommended courses to take first, to get the skills set you need.
